

Parental substance use, newborn with substance exposure in utero, domestic violence and trauma. Referrals have reportedly been made for services but it is unclear if parents are participating in services. Parents have been asked to self-refer for domestic violence/individual counseling. Children ages: newborn, 3, 8 - unclear what services children are receiving

DV/Trauma/refer for counseling

DV/Self-Refer for DV services

Substance-exposed newborn

Ms. Johnson aged out of foster care/In need of resources

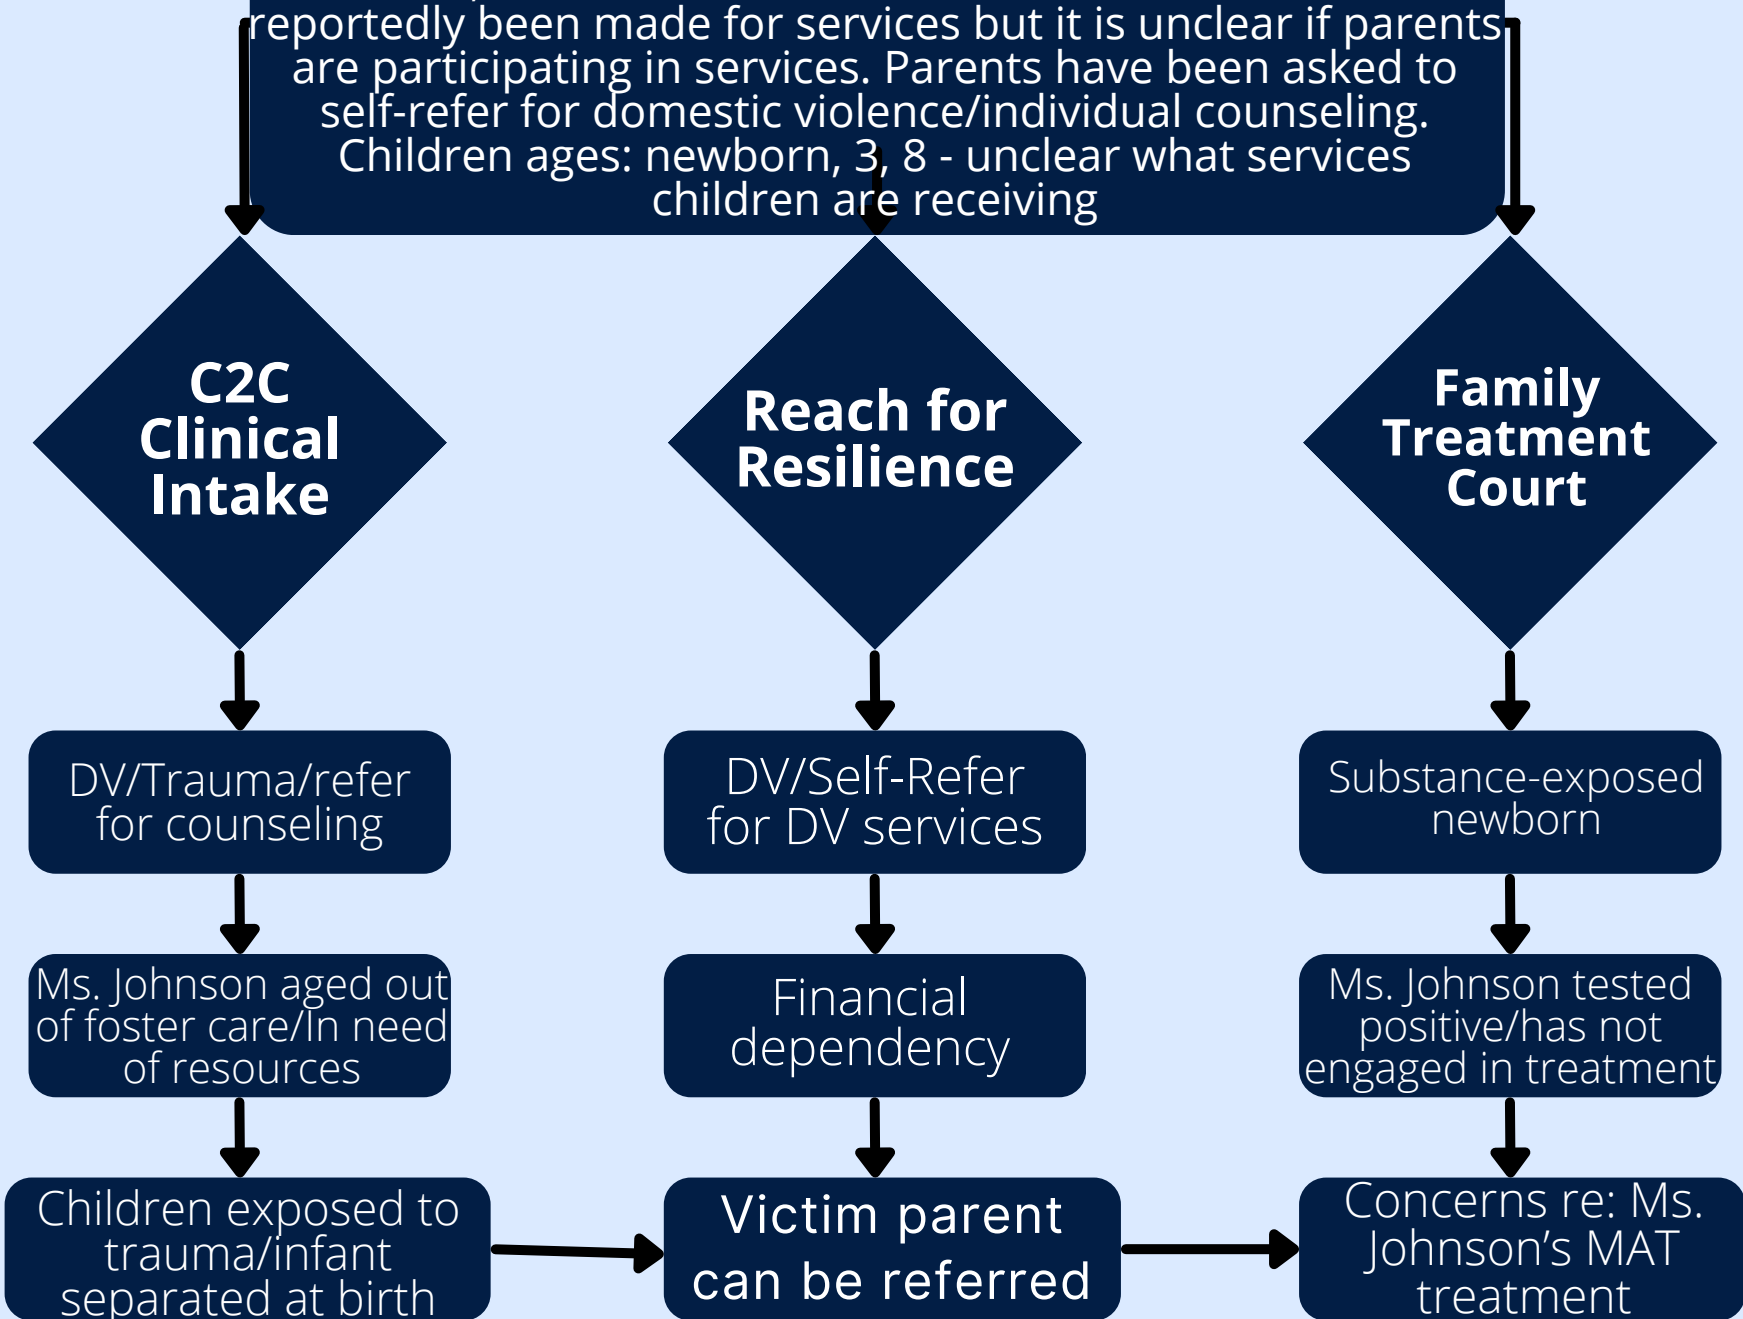

Financial dependency

Ms. Johnson tested positive/has not engaged in treatment

Children exposed to trauma/infant separated at birth

Victim parent can be referred

Concerns re: Ms. Johnson's MAT treatment

Parents have a history of substance use with infant born exposed to opiates, alleged domestic violence, eviction, Ms. Johnson does not have an employment history. Unclear if kinship placements have been assessed. Unclear if services have been referred or started

Community Coordinator

Mediation

Resource Coordination
